

Transparent Display Integration Kit

LCD-490-TRN

49"

1. General Description

Transparent LCD Displays are the latest innovation in LCD technology, opening up a wide range of new opportunities in retail and marketing. Here at CDS we have our own range of transparent displays manufactured for us, and as we control the manufacturing, we can not only offer more sizes than anyone else in the world, but also guarantee stable supply, long term availability and LCDs with amazing quality. The technology allows you to display information / promotions on the digital display, whilst allowing you to see through it. This integration kit is designed to be built into an enclosure produced by the buyer/integrator.

2. Transparent Panel
