# Professional Retail Tablet

---

There is a growing demand for commercial tablets for professional applications where performance and reliability is essential.

Our tablets are available with Windows and Android OS and can be customized to suit your application with barcode readers, RFID, integrated cameras and more.

# Curved LCD Displays

---

There is a growing trend for curved displays particularly in the gaming and retail industry.

With a wide range of sizes available we can offer both C curved and J curved solutions, with optional PCAP touchscreen and LED halo where required.

# Transparent OLED Solutions

---

Transparent OLED is the latest breakthrough in transparent displays. Available in a 55" this display allows you to see through the display without the need for a backlight behind the display.

We have a wide range of configurations available depending on your application, including frames to allow you to tile these and make a transparent OLED videowall.

Also available with touchscreen for interactive applications
