

CASINO

TOUCH MONITORS

FROM CRYSTAL DISPLAY SYSTEMS

CDS are a specialist global supplier of innovative industrial LCD display and digital signage solutions. CDS have a growing positive reputation in the gaming market sector with some major global clients choosing CDS over more familiar gaming suppliers.

LED FRAME FLAT MONITORS

LED Frame displays (the CDS Halo) is now an essential look in gaming cabinets. CDS have an ever expanding range with full bespoke capability. With sizes from a small 10" to a massive 55" we are able to meet most requirements.

LED FRAME CURVED MONITORS

To compliment the flat LED frame monitors CDS have a range of curve monitors. These are available with / without the LED frame effect and with / without PCAP touch. Both C and J curve options are available from 32" and the 23.6" is in development.

OPEN FRAME LEGACY MONITORS

CDS are able to offer simple open frame monitors for new designs, and bespoke solutions for legacy design support.

We are also able to offer alternatives to ELO PCAP touch monitors. These are form, fit & function compatible alternatives.
