Nebula Powerwise Touchscreen Computer for Healthcare Innovation

CDS Crystal Display Systems Ltd
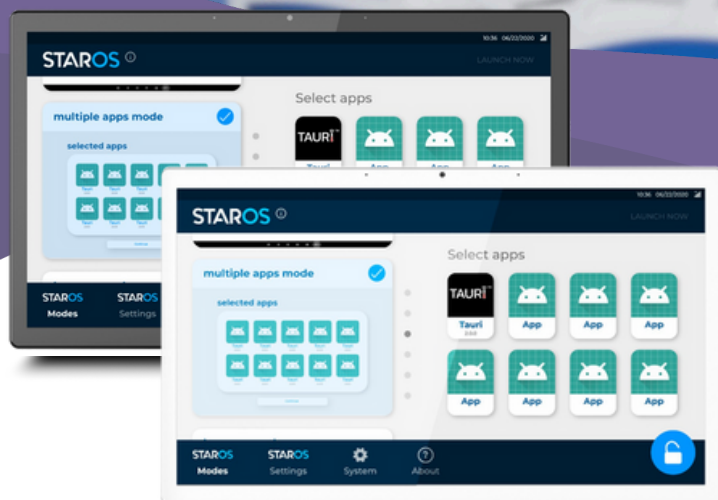

A sleek, all-in-one solution designed to:
Streamline patient check-ins
Simplify wayfinding through hospitals and clinics
Enable seamless medical IoT integration

Stunning Display

- 10", 15.6" & 21.5" Full HD
- 400 cd/m² brightness
- Anti-glare glass
- 10-point capacitive touch

Powerful Performance

- 8-core(4xA73 2.4GHz & 4xA53 1.9GHz
- 4GB RAM
- 64GB eMMC storage
- Android 13

Advance Connectivity

- WiFi 6
- Bluetooth 5.1
- PoE Ethernet
- Versatile I/O ports (USB 3.0, Type-C, UART, GPIO)

Elevate Patient Care & Efficiency

- **PatientCheck-InKiosk:** Streamlines registration byguiding patients, auto-verifying insurance, and triaging symptoms via smart questionnaires.

- **Interactive Bedside Monitor:** Personalizes patient interfaces, predicts care needs, and suggests educational content.

- **Digital Whiteboard:** Prioritizes and updates patient care tasks, staff assignments, and alerts based on real-time data.

- **Digital Door Sign:** Dynamically adjusts room status or precautions using patient data and infection risk predictions.

- **Telemedicine Interface:** Enhances virtual consults with real-time transcription, symptom analysis, and diagnostic support.
