Why Digital Signage?

Digital signage captures 400% more views than static displays

83% of people recall at least one ad they saw on digital signage

Digital signage can lead to a 29.5% increase in retail sales

Digital displays increase brand awareness by 47%

Crystal Display Systems - About us!

We are a leading designer, distributor, value added reseller as well as the developer of custom monitors and customisation of flat panel display solutions.

Established over 12 years ago, our expertise allows us to offer the best solutions to our clients and partners. We offer Industrial TFT LCDs, OLEDs embedded AIO, touch screens, and digital signage solutions.

Our technical sales and support team to work closely with you on your specific project and requirements.

Our Testimonials

“

The CDS team were really helpful in sorting out an order for an IP rated LCD monitor. Their communication and assistance were professional and timely and I wouldn't hesitate to use them again in the future or recommend them to others in the industry."

"We use over a dozen of the ultra-wide touchscreen monitors and have had nothing but good results."

“

"CDS are a pleasure to work with and quite helpful in assisting with finding the right product. The team are very responsive, and followed up to ensure we received the product and that our experience was a positive one."

"A great partner! The team are always very helpful with anything I request now matter how unique the project."

“

"Ash Hawkes and Meghan Mudge are great at taking care of our needs. I would highly recommend CDS for any business looking for a custom solution. The CDS team is very attentive and dedicated to customer service. They made the whole process painless and easy. The level of customer service they have provided makes me excited for the future of our business relationship. Keep up the fantastic work!"
