4GB RAM  
32GB eMMC storage  
Android 15

**Advance  
Connectivity**

WiFi 6 Bluetooth 5.0 PoE  
Ethernet Versatile I/O ports  
(USB 3.0, Type-C, UART, GPIO)

**Streamline Patient Check-Ins:** Reduce wait times and staff workload with intuitive self-service kiosks – patients love the easy touch interface!

**Enhance Security & Compliance:** Kiosk mode and MDM ensure data protection in sensitive environments, keeping patient info safe and meeting regulatory standards.

**Boost Efficiency & Engagement:** Display health info, appointment reminders, or educational videos on a sleek white/black design that blends into any clinic or hospital.

**Cost-Effective Reliability:** Long-lasting hardware minimizes downtime, saving time and money while improving patient satisfaction scores.

**Versatile for Any Setting:** Ideal for waiting areas, exam rooms, or pharmacies – power it via PoE for clutter-free setups.
